Northbridge Materials Publishes 2025 Sustainability Report, Reporting a 14% Reduction in Cement CO_2 Intensity Since 2019

Sustainability · 2026-04-02

ISSUER	Northbridge Materials Corporation (NYSE: NBMC)
RELEASED	2026-04-02

HARRISBURG, Pa. - 2026-04-02

The report details progress against the Company's 2030 targets for carbon intensity, water recycling, quarry reclamation and workforce safety, prepared with reference to SASB and TCFD frameworks.

Northbridge Materials Corporation (NYSE: NBMC) has published its 2025 Sustainability Report, covering the year ended December 31, 2025.

Net CO_2 intensity of 578 kg per ton of cementitious product, a 14.2% reduction from the 2019 baseline of 674 kg.

Total recordable incident rate of 0.71, against an industry benchmark of 1.94.

81.3% of process water recycled across aggregates operations.

1,940 acres under active reclamation, including 612 acres returned to public or conservation use since 2020.

The report was prepared with reference to the SASB Construction Materials standard and the recommendations of the Task Force on Climate-related Financial Disclosures.

About Northbridge Materials

Northbridge Materials is a vertically integrated supplier of construction aggregates, portland cement and ready-mixed concrete, serving infrastructure, non-residential and residential customers across nineteen states.
